

# Nursery Remote Learning Balloon Rockets

## You will need

A balloon

A long piece of string

A plastic straw

Tape

## What to do

Tie one end of the string to a door handle, stair banister or another support. Thread the other end through the straw. Blow up the balloon but do not tie the end off, just pinch it tightly. Tape the balloon to the straw like in the picture. Let go of the end and see how far your balloon travels!
