

# Nursery Remote Learning Create Your Own Puzzles

## You will need

Cards, photos, pictures from cereal boxes etc...  
scissors (adult use here)

## What to do

Cut pictures of your choice in half and encourage your child to put the pieces back together with you.

Talk about the shapes, colours and sizes of the pieces and their properties, do they have straight sides? Curved sides?

How can you identify the corner pieces?

Have fun making various puzzles to suit your child's interests.

If you have a printer you could use this link from Orchard toys.
