

This Week

Our Learning

8.03.24

This week the children enjoyed making Mother's Day cards, using oil pastels to draw daffodils and tulips on the front. They also practised their mark-making skills, writing messages inside the cards. It was lovely to see the children's excitement at being able to choose a beautiful Mother's Day gift – thank you for all your generous donations!

To celebrate World Book Day, Biba visited the Nursery this week, with her favourite non-fiction book. We discussed how non-fiction books tell us information and facts about the real world. The children explored a variety of non-fiction books on different topics and enjoyed sharing them with their friends.

We have been encouraging the children to tell us stories using the tales toolkit – character, setting, problem, solution. At group time, we have been acting out these stories on the stage and making the children's stories come to life!

Next Week

We will be practising our ball skills and getting our bodies moving – thinking about our hearts and our health. After taking part in exercise, the children will be encouraged to feel their chest to see if their heart is beating faster. We also will be looking at a human skeleton and discussing the bones in our bodies.

Continuing on from our observational drawing of tulips, the children will be painting another type of flower. We will encourage them to think about what colour paint they will need for each part of the flower.

We will be reading the story Walters Wonderful Web, discussing and describing the shapes that he makes. We will be using language such as; straight, curved, round, long and short.

At home

As a fun physical activity, you could sing 'Heads, Shoulders, Knees and Toes' and do the actions together. Firstly, try at normal speed and then have a go at singing and doing the actions really quickly! How does your body feel? Is your heart beating fast?

Exercises like this are a great opportunity to discuss with your child the importance of getting our bodies moving for good health.
