

Our Learning

This Week

Monday 4th March to Friday 8th March

What a fabulous week we have had this week in Nursery. We have particularly enjoyed creating an obstacle course which included climbing up the cargo net, this helped us to achieve part of one of our curriculum goals. We were impressed by the many different ways used to cross the obstacle course such as balancing, sliding and crawling. These movements help us to develop our core strength, gross motor skills and co-ordination. Following instructions and working towards a goal are skills integral in enabling children to engage in learning so that they can sit still, focus and concentrate. In addition, physical activity also helps to develop a healthy body, social and emotional well-being.

We really loved welcoming many of our parents and carers into nursery to take part in our 'Stay and Play' (come and read) session. The visitors read books with the children and this was an excellent way of demonstrating the value of books and encouraging a lifelong love of reading. The children were so happy to spend time demonstrating their favourite activities to their grown-ups and some took pride in sharing their Learning Journey folders.

Next Week

Monday 11th March to Friday 15th March

We are planning to enjoy spending time in the nursery garden looking for signs and features of spring. We will be encouraging the children to notice the beautiful flowers, trees and plants, talking about their growth and change.

We are really looking forward to having fun on Friday to support Comic Relief, when we can 'Dress up Funny for Money with Bluey and Bingo'!

We will be extending our knowledge of the traditional tale 'The Three Little Pigs' by using Makaton signs, creating pictures to represent the story and working together to build the three little pigs' houses in the garden.

At Home

Enjoy watching [BBC iPlayer – Numberblocks – series1 8. three little pigs](#)

Create an obstacle course in your home using various household items such as cushions, boxes and blankets. See if you can go over, under and through.

This week our key words are **subitise, buds, materials, change and construct.**
