

This Week

Our Learning

12.07.24

It has been another busy week at Nursery! Bright and early on Wednesday morning, Pete the Farmer brought his farm animals to visit us. The children were very excited to meet them all! We learned how to look after them, how to feed them and we were even able to groom the pony and hold the chicks and a velvety soft rabbit. We found out that goats are always hungry and will try to nibble on anything within reach! The children were fascinated by the giant tortoise 'Goliath' who strolled freely around the garden, enjoying all the attention. It was a lovely day and it was wonderful to watch the children being immersed in and enjoying learning about the natural world.

We have been looking at and reflecting back on our time at Cookham Nursery School. The children have been able to look through their Learning Journey folders and talk about all their amazing knowledge. We have also been combining our balls skills and Maths together by aiming five bean bags into a hoop, and asking "What do I see?" and "How do I see it?", noticing how many we scored.

Next Week

We are looking forward to performing our rhymes and songs for you on **Wednesday at 11:15 am** or **Thursday at 2:15 pm**. The children have been very busy practising the words and actions so please do come along if you can!

Next week, children will be exploring subitising alongside sorting using our new Tagua Nuts. These are special nuts that are from the heart of the Amazon from the 'Tagua Tree' that produces an extraordinary fruit. These are then picked, dyed with natural dyes, cut into pieces and polished.

At home

Can you notice any changes in the plants and trees at this time of the year? Can you spot any insects, bees or butterflies? What colours can you find among the flowers and leaves? Maybe you can draw a picture or make a collage inspired by what you see.
