

Our Learning

This Week

Monday 6th July to Friday 10th 2026

This week at nursery the children have been taking part in “Hapa Zome” which is an ancient Japanese technique of leaf and flower printing. The children have loved experimenting with this new technique and seeing which of the flowers best transfer on to the fabric.

Sofia, our persona doll came to visit us at nursery again this week. Sofia was helping us learn all about our new school logos. Sofia brought with her some uniforms and bookbags to show us what they may look like. The children loved telling us about their new schools and what colour uniform they will have. We have really enjoyed hearing about the children’s school visits.

The children have been moving around the nursery pretending to be robots and using ‘remotes’ to move their robot friends around nursery too. This encourages the children to talk about directional language such as forwards, backwards, left and right.

Next Week

Monday 13th to Friday 17th July 2026

Next week we will be taking part in some yoga outside. We will practice lots of calming poses and enjoy moving our bodies in the garden.

The farm will be returning to nursery next week. In preparation for this we have done a lovely talk time with the children to discuss what animals may be coming to the playground and how we keep ourselves safe by washing our hands after we touch the animals and the importance of keeping our hand flat to feed them.

At Home

Have a look around your home and see if your children can recognise any familiar logos such as Heinz, sports brands on clothing and shoes or supermarkets such as Tesco and Aldi.

This week’s keywords are logo, yoga, pose, map and route.
