

Our Learning

This Week

6th July to the 10th July 2025

Over the past few weeks our Pre-Nursery children have been inspired by ice cream! They have used their senses when exploring moon dough, cereal, sand and mud!

This week we have focused on physical development. The children have been challenging themselves, building the crates up and jumping off. We reminded them to stay safe whilst taking risks and we were so impressed with their growing confidence! The children have also enjoyed practising their hand-eye coordination when throwing and catching and have had fun taking part in some tummy time through the tunnels!

At home

You could have a go at creating your own dough at home.

Moon dough recipe

2 cups of cornflour

1 cup of conditioner

Food colouring if you'd like to add more colour

You can add more conditioner or cornflour depending on the consistency that you like! We like to use scented conditioner too!

Let's get dressed!

The team have been working with the children on their independence skills. Our Pre-Nursery children have amazed us with their determination when putting on their shoes and socks after playing in the sandpit. Below is a link with some top tips on how to support your child with dressing themselves at home! Please click [here](#) for a useful link.

Our key words this week...

Catch, throw, crawl

Our key words next week...

Farm, animals, care
