

Our Learning

This Week

Monday 7th September to Friday 11th September

It has been so lovely to welcome back our existing children and begin to get to know some of our new intake. The older children have been very helpful and kind towards their new friends. We have been really pleased to see how everyone seems to be settling so well and forming new relationships.

The children have loved our new-look home corner and have enjoyed singing and dancing on the stage. There was lots of excitement and fun when the children discovered the new Numberblock cubes in our new Maths area.

This week we have been becoming familiar with our daily routine and have introduced the children to the large visual timetables in each room.

The children listened carefully to one of our core books called, 'Owl Babies' and it was great to hear them talk to each other afterwards and show they understood that the mummy owl always came back, just like their parents and carers would too.

Next Week

Monday 14th September to Friday 18th September

We are looking forward to welcoming more children and their families to The Lawns.

Next week, Ravi (our persona doll) will be visiting and telling the children all about his family.

We will also have lots of fun singing number songs and using props such as 'teddy bears' and 'currant buns' to support the learning.

At Home

- Please can you encourage your child to be as independent as possible e.g. flushing toilet, managing own clothing, washing hands etc. Some of the children are finding it difficult to recognise their coat. It would be a great help if coats were clearly labelled, and the children are supported in hanging them up on the trolley at the beginning at the session.
- Time at nursery is very busy and filled with lots of fun activities. You may find that your child is a little overwhelmed if you ask them "what did you do today?" Perhaps ask if they can tell you just one thing that they enjoyed during their day.
- Our key words for next week are: **family, song** and **ready, respectful, safe**.
