Our Learning

This Week

5th October – 9th October 2026

This week our Pre-Nursery children have continued to explore the environment and learn routines. We have been using our 'washing hands' visual to support them after using the toilet or potty and before lunch and snack times.

As part of our physical goal, 'Move and Notice' the adults have created opportunities for the children to run and jump. They are really enjoying the 'Stop, Go' game in the garden. We are supporting our Pre-Nursery children's early math's through singing number rhymes and they have been having a go at using their fingers and thumbs to join in with action songs. This is really tricky for our youngest children but will help them to develop finger strength and control.

The children have loved exploring and peeling sprouts in their role play kitchen this week and have also enjoyed vegetable printing, using up some veg that was headed for the compost! Their wonderful patterns are displayed in the classroom to share with you when you drop off to nursery.

Our Makaton sign of

the week is:

Please

At home

Below is a link from Berkshire Health Care (NHS) with advice and resources that you can use at home when supporting hand and finger skills and development. Please click here

We are enjoying sharing and learning the songs and rhymes:

Tap, tap, tap!

One finger, One thumb

Tommy Thumb

Our key words this week are…

Vegetable, finger, thumb

Our key words next week are…

Help, more, jump

Reminder: Please join us for our health and nutrition workshop next Friday 16th October at 9.30am. Sign up in the office with Liz or Sam.
