Our Learning Adventures:
16th - 20th November 2026

Here is some of this week's learning and exploring.

We are continuing to enjoy the story about the 'Enormous Turnip'. We have shared lots of ideas about the characters, setting, problem and solution, as well as creating our own role play with a real (not so enormous) turnip!

Biba brought the book 'Ruby's Worry' to share with us. We highlighted the importance of talking to someone when we feel worried and we are in the 'Yellow Zone'.

We are playing with sounds to develop our listening skills and awareness of sound effects. We created our own sounds with shakers as we read 'We're Going on a Bear Hunt'.

Understanding position, perspective and movement are key mathematical skills. We walked around our garden, using positional vocabulary as we travelled up, down, through, past, along and behind.

Now that the children know the safety rules when using the woodwork cabin, they have started to develop their woodwork skills. This helps to develop their hand eye co-ordination and strengthens their fine-motor muscles.

Next Week

We will start to think about the season ahead and how we can ensure that wildlife can find safe places to feed and shelter in the colder weather.

At Home

Notice birds and other wildlife that visit your garden or you might spot when outdoors. Think about what they are doing and why.
