Our Learning Adventures
16th - 20th November 2026

The children were surprised to receive a message from Graham (toy guinea pig) about his favourite ice cream. The children were inspired to write back to Graham, telling him all about their favourite flavours.

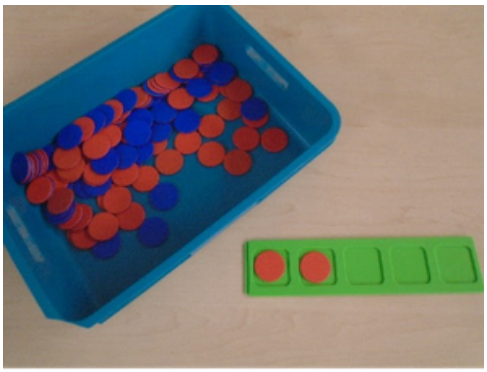

We revisited the Zones of Regulation and discussed when we may feel each emotion. We sorted the emotion visuals into the four zones by using coloured hoops.

We listened to the story of 'The Gingerbread Man' and introduced children to the 'Tales Toolkit' symbols.

We explored the number 2 through movement and rhymes. The children were encouraged to take two counters from a larger amount and place them on a five frame.

Our Learning Adventures
16th-20th November 2026

We read a rhyming story during our time together called 'Oh Dear, Look What I Got!'. The children were encouraged to join in with the rhymes, such as 'snake and cake'.

Next Week:

Following on from reading the story of The Gingerbread Man, the children will explore different forms of ginger during our time together.

At Home:

Perhaps your child could have a go at writing their own message at home. This could be a message for their own cuddly toy or family member. The children have enjoyed making marks on post cards, post it notes and greetings cards.
